

Latest openssl and openssh for AIX from IBM

Contributed by Michael Felt

OpenSSL and OpenSSH provided by IBM

OpenSSL summary

- The latest version of OpenSSL available today (4 April 2018) is openssl.base.1.0.2.1300 (openssl-1.0.2m)

- Older versions are available - but no longer supported!

openssl.base.1.0.1.X - support is withdrawn since Jan 2017

openssl.base.0.9.8.X - support is withdrawn since Jan 2016

- OpenSSL can be downloaded from IBM site:

<https://www14.software.ibm.com/webapp/iwm/web/preLogin.do?source=aixbp>

OpenSSH summary

-

The latest levels are: openssh.base.6.0.0.6204, openssh.base.7.1.102.1100 and OpenSSH_7.5.102.1100. There are feature differences between these versions (6.0, 7.1 and 7.5).

- See my summary of release notes from OpenSSH-6.0 to OpenSSH-7.6

The latest version released by OpenBSD is OpenSSH-7.6p1 (which I have packaged at <http://www.aixtools.net/index.php/openssh>)

-

Likewise, OpenSSH can be downloaded from IBM site:

<https://www14.software.ibm.com/webapp/iwm/web/preLogin.do?source=aixbp>
